

ED100 SIZING GUIDE

KEY MEASUREMENTS:

The ED100 is highly adjustable to fit a wide range of body types, but there are key measurements to decide what size is right for you. It is best to have someone help you with body measurements using a tailors measuring tape.

A. HEIGHT: Use a current height

B. CHEST: Raise both arms and run tape measure around the fullest part of chest, underneath both arms. Lower your arms to record the measurement.

C. WAIST: Bend to one side to find the natural crease of your waist. Measure at this point, keeping the tape comfortably loose around your waist.

SIZE	HEIGHT	CHEST	WAIST
XSM/SM	5" - 5' 7"	29"-35"	26"-34"
MD/LG	5' 7" - 6' 4"	36"-50"	34"-45"
XL/XXL	6' 5" +	50" +	46" +
