MISSION STATEMENT

HWI Gear, Inc. commits to value-focused innovation in protective apparel. From the design room, to customer service, we strive for continual improvement to be the top of the industry.

HOW WE GET THERE

HWI Gear, Inc. is an industry leader in glove manufacturing and chief supplier of innovative law enforcement and military protective apparel. As a small, veteran owned, family business, HWI Gear has been bringing cutting-edge, protective apparel designs to the market for over 35 years. HWI Gear has delivered over 2 million pairs of gloves to the US military and will continue to design state-of-the-art products to meet the ever-evolving demands of the US military for infield protection. We also focus on improving product offerings for law enforcement by investing in new technologies and utilizing end-users for development and feedback.

HWI Gear, Inc. has an in-house design and sample building team to help bring our products to the market. We have established an exclusive network of manufacturing to meet any requirement, such as American made (Berry Compliant) products, TAA compliant products and small-run specialized offerings. HWI Gear, Inc. continually invests in sustaining a complete supply of protective gloves and other safety apparel.

HWI GEAR ACQUIRES MASLEY® ENTERPRISES INC.

HWI Gear, Inc. Acquires Masley® Enterprises, Inc. in an innovative merger for protective military apparel. Groundbreaking technology combined with unmatched quality and fit is next step in hand protection and tactility as HWI Gear, Inc., announced in January 2023 the purchase of Masley® Enterprises, Inc. Masley® Gloves, a 23-year-old protective handwear company, specializes in highly technical, American Made, military gloves. The production operation has moved to the HWI Gear, Inc. corporate office in Denver, CO, with a commitment to manufacture by June 2023.

Masley®/HWI Gear will proceed with technical performance materials that include flame resistant NOMEX™ knit, GORE-TEX® glove inserts for waterproof, windproof and breathable protection, fuel and POL resistance, SmartSilver™ Fabric and DuPont NOMEX™ Fiber, touchscreen capabilities, and Aviation Approved.

The successful acquisition of the Masley® Glove brand by HWI Gear ensures the continual investment in small business suppliers of protective gloves for the US Military. HWI Gear will continue to focus on high-caliber innovation within the Masley® brand. Together the Masley®/HWI Gear brands will expand the glove industry with a joint focus on customer satisfaction, respect for the end user, and appreciation for the skilled workers constructing cutting-edge protective apparel. Masley®/HWI Gear will continue to design and manufacture exclusive gloves with leading performance properties.

WARRANTY

HWI Gear, Inc. is dedicated to customer satisfaction and provides this warranty as assurance of a quality product. HWI will provide prompt and courteous attention to your product requirements. HWI warrants its manufactured products, to the original purchaser, to be free from defects in materials and workmanship during normal use and service for a period of 1 year from date of purchase.

Some states do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you. To obtain warranty service, the original purchaser must contact the dealer where they purchased the manufactured product prior to the end of the 1 year warranty period. It is HWI's sole discretion whether to repair or replace the warranted product.

TRADEMARK INFO

DuPont™ and Kevlar® are trademarks or registered trademarks of E.I. du Pont de Nemours and Company, trademarks of HWI Gear, Inc. and its affiliated companies. All products are trademarks of their manufacturers.

FH FEATURES:

NEW PRODUCT

The Fuel Handlers Glove (FH) is an American Made Masley glove now sold as part of the HWI Gear, Inc. product family. An alternative to the traditional rubber fuel handlers glove and the non-barrier gloves often worn by fuel handlers, such as the traditional flyers glove and the light duty glove, the FH is a comfortable and tactile-fitting glove with a full barrier lining for resistance to POL's (petroleum, oils and lubricants). The outer shell is constructed of flame resistant simplex knit and POL and flame resistant leather. The inside lining is a combination moisture-management brush knit for wicking sweat away from the hand and a fully sealed, breathable barrier for resistance to POL's. The glove shell pattern has concealed (in-seam) stitching for durability. A gauntlet increases the length to the mid-forearm. A strap and buckle fastener is located on the back for cinching at the wrist.

ED GEN 2

RIOT SUIT ELITE DEFENDER GEN 2

Built-in harness system
for ballistic plates

Sturdy PE protective shell for
blunt-force trauma protection

MOLLE webbing system on
chest plate and hip guards for
ad-ons and storage pouch

Sturdy nylon
and hexagon
sandwich mesh
material

Integrated
elastic straps
for size
variability

Built with special
suspension hard
shell design which
minimizes shock
absorption and
protection

Combination
of thick BNI and
EVA foam padding
throughout suit for
force absorption

ED100 GEN 2 FEATURES:

The Elite Defender Riot Suit (ED100) offers critical protection from bluntforce trauma that doesn't sacrifice fit and comfort. The effective and consistently reliable ED100 Riot Suit is easily deployed and/or removed for riot control, cell extractions or other tactical situations. The Elite Defender Riot Suit's contour molded outer shells feature impact ridges that disperse the brunt of blows, jabs and other projectiles, while foam inner padding cushions the officer's body. Soft brush and mesh line the inside to reduce abrasion and provide long-term comfort. The sturdy PE hard shell protectors are used for covering and shielding most of the body. The Elite Defender Riot Suit was designed to protect your body in the most rigorous tactical situations and has proven to be the premier riot suit in the industry.

BWH

Designed for handling
barbed wire, concertina
razor wire and sharp objects

Made with thick,
cow-split leather
and steel staples

BWH glove has
improved flexibility
with sewn clute pattern
on back of hand

BWH FEATURES:

NEW PRODUCT

The Barbed Wire Handler Glove (BWH) is an American Made glove. This glove is designed for handling barbed wire, concertina razor wire and sharp objects per US Military specifications. This BWH glove is made of thick, cow-split leather and steel staples. The palm side of palms, fingers and thumbs have a clute design pattern with reinforcement. The gauntlet protects the wrist area. The palm liner is made of cotton flannel and the gauntlet liner is made of unbleached hard texture cotton duck.

- Made to tough US Military Specifications -- A-A-50054A.
- NSN (National Stock Number): 8415-00-926-1674.

hook and loop closure

Top grade
cowhide leather

WG100 FEATURES:

NEW PRODUCT

The HWI Gear Wheelchair glove has a modern functional design combined with the comfort and support of a classic wheelchair push glove. The open finger, half thumb, wraparound design allows for extreme comfort while the shock absorbing rubber padding in the palm provides the ultimate protection and durability to your hands. Designed for both paraplegics and quadriplegics, this glove is easy to don and doff by persons with limited hand mobility.

GLOVE SIZING

HOW TO USE A TAPE MEASURE

Place the tape measure around your knuckles, or the widest part of your hand, making a loose fit. Round your measurements to the nearest inch.

HAND WIDTH	SUGGESTED SIZE
5" (12.7CM)	XXX SMALL
6" (15.2CM)	XX SMALL
7" (17.8CM)	X SMALL
8" (20CM)	SMALL
9" (23CM)	MEDIUM
10" (25CM)	LARGE
11" (28CM)	X LARGE
12" (30.5CM)	XX LARGE
13" (33CM)	XXX LARGE

No two hands are the same. No method can be as accurate as trying on our gloves. This is a general guide only.

TESTING RESULTS KEY
